

## Capability Statement

### Subsea Cables

MarineSpace provides specialist marine consenting, environmental assessment and monitoring advice to a wide range of subsea cable projects

#### Our Vision

*To work collaboratively with our clients, and with due consideration for the sensitivity of the marine environment, to provide consistently high quality, reliable advice regarding the planning, consenting, development, operation and monitoring of their projects.*

MarineSpace is able to provide specialist environmental and consenting advice to projects with subsea cable elements. Typical services include a range of technical input on desk-top studies/route selection studies, input to due diligence studies, review and advice on existing consents/permits, applications for new consents and design/management of marine surveys and management of environmental monitoring programmes.

Specific recent experience of the MarineSpace team with respect to subsea cable projects includes:

- New Marine Licence application for cable repair event at Thanet OWF export cable;
- New application for long-term cable O&M type Marine Licence at Thanet OWF export cable;
- New application for long-term cable O&M type Marine Licence at Greater Gabbard OWF;
- Provision of environmental and fisheries liaison support in relation to OFTO assets (export cable and OSS) at Greater Gabbard, GyM, Humber Gateway and Thanet OWFs;
- Provision of consenting and technical advice to OFTO in relation to cable repairs at GyM OWF;
- New Marine Licence application for export cable protection at Gunfleet Sands OWF;
- New application for long-term cable O&M type Marine Licence at Lincs OWF;
- New application for long-term cable O&M type Marine Licence at Barrow OWF;
- New application for long-term cable O&M type Marine Licence at Ormonde OWF; and
- New Marine Licence application for scour protection at London Array OWF export cable.

## Capability Statement

### Subsea Cables

MarineSpace provides specialist marine environmental assessment, consenting and monitoring advice to subsea cable projects

## Key Benefits of Using MarineSpace

- Extremely experienced staff
- Strong work ethic and project delivery history
- Extensive knowledge of UK marine consenting and environmental issues
- Excellent knowledge of the UK regulatory process for all marine developments
- Expertise across a range of industries
- Ability to deliver both high-level strategic and targeted technical advice

## Project Case Study

MarineSpace has been providing environmental consultancy support to Greater Gabbard OFTO plc since 2014.

MarineSpace have prepared and submitted a Marine Licence application for O&M type cable repair/remediation on behalf of the OFTO as well as providing an Environmental Liaison Officer (ELO) and Fisheries Liaison Officer (FLO) to the project.

The ELO has led on the creation of a Licence Register for the project to ensure compliance with relevant consent conditions whilst the FLO attends and chairs quarterly Fisheries Working Group meetings attended by local fishermen and the MMO and IFCA.

MarineSpace staff also review any relevant surveys undertaken over the subsea cables (bathymetry, sidescan, Depth of Burial) on behalf of the OFTO and lead on liaison with key stakeholders as and when needed.

Similar services are also provided by MarineSpace on another eight OFTO projects, some of which include review and advice on cable exposures and freespan from an environmental and consenting perspective.

MarineSpace is registered with the Achilles Utilities Vendors Database (UVDB)  
Supplier Number: 094974
